The mission of the *International Journal of Doctoral Studies* (IJDS) is to provide readers worldwide with high quality peer-reviewed scholarly articles on a wide variety of issues in doctoral studies using the Informing Science (IS) framework. The editorial objective of IJDS is to inform all those involved with doctoral education regardless of specific discipline. IJDS articles discuss issues such as (but not limited to) the following: doctoral supervision, doctoral dissertation and/or research, the nature and future of doctoral programs, doctoral program design, experiences in doctoral programs, attrition and persistence in doctoral programs, doctoral qualifiers and examinations, doctoral program accreditation, copyright and intellectual properties in doctoral research, climate and support for doctoral study, career path and employment of doctoral graduates, methodology, methods and theory development, as well as research and publication issues in academia. Read more about the scope of papers accepted by IJDS here: [http://www.informingscience.org/Journals/IJDS/Information](http://www.informingscience.org/Journals/IJDS/Information)

IJDS especially encourages publications authored by faculty members and/or academic administrators who actively supervise doctoral students, teach doctoral courses, and/or oversee doctoral programs. Joint publications between faculty members and their doctoral students are also encouraged.
While IJDS is principally an interdisciplinary forum that publishes high quality articles on theory, practice, innovation, and research covering any aspect of doctoral studies, book reviews are also welcome. Authors may use bodies of knowledge from diverse fields of research. However, IJDS is not a general outlet for doctoral students who wish to publish their doctoral research, unless their doctoral research is related to investigation of the issues indicated above. IJDS provides those who submit manuscripts for publication with useful, timely feedback by making the review process constructive. IJDS is the world premier scholarly peer-reviewed journal on doctoral studies. All submissions are blind refereed by three or more peers. IJDS articles appear online free of charge on the web site http://ijds.org

IJDS is listed in:
  Australian Government Excellence in Research for Australia Initiative Ranking "B",
  Cabell's Directory of Publishing Opportunities in Educational Technology & Library Science,
  Cabell's Directory of Publishing Opportunities in Educational Curriculum and Methods,
  Cabell's Directory of Publishing Opportunities in Educational Psychology and Administration,
  EBSCO Publishing's Index of Academic Journals (Education Research Complete -- Full Text),
  Scopus
  Ulrichs
